### DELTA Multi

A triangular shaped specialist floor drain, offering a simple space saving installation in Corners. Complete with grate, this drain uses the Multi Trap system, resulting in high flow rates, & a selection of build-in heights when space is very limited. **E&OE**

#### PRODUCT CHARACTERISTICS

- Very high quality Marine Grade 316 Stainless Steel offers superior resistance to chemical attack, & is especially suitable for coastal installations
- Outlet is CENTRAL, to allow various joists positions to be catered for, while the trap assembly can be rotated through 360 degrees, & offers 3x trap options, incl. trap water seals of 50, 35 & 30mm
- Unique CORNER Design, allows Space Saving installation, simplifies gradient build up, & setting out of tiles
- Installation Wall Flange helps support the drain, & low height allows fitting onto joists, & into common floor boards
- Height adjustable S/Steel Grate has a foot friendly finish & allows various thicknesses of tile to be used
- Access to trap system is via removable grate feature
- Installation Sealing Kit – Optional Extra. See Data Sheets

#### APPLICATIONS

Delta Multi Drains are used in wet room showers, & are specifically designed to save space by fitting in corners. Suits:

- En-Suites – small bathrooms where space efficiency is at a premium
- High End Designer Bathrooms – Large sizes add to the feeling of space within a shower area
- Refurbishments & New Build
- Floor Structures – Designed for especially for Concrete floors, while the 2x wall flanges aid fitting into all bathroom designs
