

Issued - 24 June 2011

**TRAPEZIUM 300
 TRAPEZIUM 700**

A unique linear shower channel designed to fit into a corner, saving space. Installation is simplified, by spanning the void between walls, & the gradient can run in one direction. Supplied with a FIXT Style Grate, & a Multi Trap System to offer options to help low build up heights, reduce space required & maintain high flow rates. **E&OE**

PRODUCT CHARACTERISTICS

- Very high quality Marine Grade 316 Stainless Steel offers superior resistance to chemical attack, & is especially suitable for coastal installations
- Outlet is CENTRAL, & the 'Push Fit' DN 50mm trap assembly can be rotated through 360 degrees, & offers 3x trap options, incl trap water seals of 50,35, & 30mm
- Wall flanges at either end aid simple fixing, & adjustment
- Removable & height adjustable S/Steel Grate has foot friendly finish & allows various thicknesses of tile to be used
- Installation Sealing Kit – Optional Extra. See Data Sheets

APPLICATIONS

Trapezium 300 / 700 Shower Channels are wide collection vessels used within wet room showers, & are offered in 2x different lengths. Suits:

- En-Suites – small bathrooms where space efficiency is at a premium
- High End Designer Bathrooms – Discrete installation adds to the feeling of space within a shower area
- Refurbishments & New Build
- Floor Structures – Designed for Concrete floors. Can be used on Board over Timber Joist floors when fully supported.

Call for advice.
