 Product category: WC flush system
 Type: Flushing cistern
 Model: Wandeinbau-Spülkasten
 Registration number: WS10575-20130219

Water Efficiency Criteria

Flush volume 6,0 l	*
Flush volume 5,0 / 4,0 l	**
With flush stop function	*
Dual flushing	**

Information about use and installation: www.well-online.eu
 A Label of EUnted Valves

APPLICATIONS

TECEbox UK 820mm universal 'low level' concealed cistern suitable for fixing within walls & ducts to supply flushing water to Floor Standing / Back to Wall WC's in en-suites, cloakrooms & other bathroom projects where WC Pans are fitted on the floor. Suitable for :

- All common construction systems, in domestic, commercial, industrial & institutional new build or refurbishment projects
- Small or large bathrooms, where space is at a premium, while ease of cleaning & sleek design is a priority
- Rapid, secure fitting of cistern allows universal connection to WC's from all major brands
- Fixed within a drywall / studwork frame (room height), within a duct or in front of solid walls & subsequently hidden with wall boards, tightly fixed to a framework, to conceal cistern, pipe-work, & control mechanisms.
- Can be used with 'grey' rainwater recycling systems when adequately filtered

PRODUCT CHARACTERISTICS & KEY FEATURES

- Low level TECEbox UK concealed cistern 820mm, (WRAS Approval Nr. 1409341) with front and top access panel & control mechanism meets or exceeds common standards
- Top control mechanism allows full access to flushing controls even with raised WC lid
- Low height allows cistern to fit below windows, without fouling of inward opening on common window sizes
- Matching range of front or top mounted, slim-line, single or dual flush, contemporary Control Plates suit all concealed cisterns, & act as a removable cover for easy maintenance access to internal workings
- Instant, tool free removal of complete Control & Service Assembly, incl. unique transparent splash guard
- Factory fitted cistern components incl. stop valve, hose, quick-to-service flush valve, & fast flowing ultra quiet (<17dB) Fill Valve, pre-fitted & quality control sealed before dispatch
- Wall brackets offer simple installation & adjustment to reduce errors & improve final installation quality
- Universal ½" water supply connection, to top or side reduces supply pipe installation time
- Suits all common floor standing & back to wall WC pans
- Cistern with factory fit insulation, reducing fill / flush noise & fights condensation
- Flush Volume : Factory Setting - 6ltr / 3ltr flush; Instant User Setting - 4.5ltr / 3ltr or lower (4.0 / 2.6 possible)*
- 10 litre polymer cistern, with 'Reserve Tank' facility offers extra rinse, even immediately after a full flush
- Unique 'throttle' control system can adjust flush performance to suit low flush volume & 'rimless' WC's

Issued - 4 August 2015

TECHNICAL DATA

- **SIZE, Height** : 521mm incl. Outlet
 - **SIZE, Width x Depth** : 500mm x 139mm
 - **SIZE, Installation ‘Rough-In’ Template** : 188mm x 111mm, finished wall thickness 20mm > 90mm
 - **MATERIAL, Isolation & Control Valve** : Brass, ½” inlet connection & reinforced hose in Stainless Steel
 - **MATERIAL, Cisterns** : Rotary moulded polymer, flush pipe welded to tank
 - **CAPACITY, Tank** : 10 Litres, with “Reserve Tank” facility
 - **CAPACITY, Flushing** : Ex. Factory : 6.0~3.0 Litres, Eco adjustable : 4.0~2.5 litres (or less*)
 - **INLET FLOW PRESSURE** : 0.1 Bar minimum
 - **CONTROL Plates (TECEprofil)** : ALL PLATES suit ALL MODELS (separate order, see Datasheet)
 - **TESTING & APPROVAL** : Tested to over 200,000 cycles, WRAS, DIN EN 14055, WELL Label – Class ‘A’ Water Efficiency, LGA, KIWA
- Only for WC pans designed for low volume flushing. Contact Sales Office for latest specifications & Information

OPTIONAL EXTRA’S

(see separate data sheets)

- : Cleaning Tablet Insert Chute
- : Control Plates in 100’s of design & finish combinations
