### Dual Flush Cistern Control Handles - ROUND

A range of unique controls to suit TECE's Installation Frames for Wall Hung WC's & also the concealed cisterns for back to wall floor standing WC pans. This wide range of handle controls can be fitted to all the TECE flushing cisterns, or Installation Frames. Supplied with fittings & instructions.

E&OE

### APPLICATIONS

The Bathroom Engineering range of control handles is uniquely designed to work the TECE concealed cisterns & cistern frames used to operate WC's in en-suites, cloakrooms & other bathrooms. A hidden mechanism within the décor plate converts push button control of TECE cisterns or frames to lever actuation, operating both the small or large flush.

Suitable for:

- All common construction systems, in domestic, commercial, industrial & institutional new build or refurbishment projects.
- All bathrooms, where space is at a premium, & ease of cleaning or sleek design is a priority.
- Especially useful for users with limited movement or grip, these cistern control handles & levers offer control of the full range of flushing features by way of easy to grasp handles.
- Suitable for TECE concealed cisterns & cistern frames only.

### PRODUCT CHARACTERISTICS & KEY FEATURES

- Rotary control handle & décor plate acts as a removable access cover, to ease service, maintenance and adjustment of internal workings.
- Hidden mechanism within the décor plate converts the push button control to lever actuation
- "Turn to Flush" rotary control system, includes Dual Flush actuation.
- Other design options suit a variety of bathroom styles incl.
  - TRAD Range 'L' shaped Control Handle Cistern lever - See separate Data Sheet
  - TRAD Range 'X' shaped Control Handle Cistern Cross Head - See separate Data Sheet
- Décor plate & handle sit proud of the installation finish
- The handles & main décor plate are made from chrome plated brass, to give a high quality polished finish
- All flush control lever handles can be retro-fitted to existing TECE cisterns & cistern frames.
- The metal parts of the handle, flange & décor panel allow another plated finish to be applied, in order to match other items within the bathroom.
